PROFESSIONAL SUMMARY

I am a self-taught, passionate and dedicated software developer with a strong academic foundation in computer applications. With experience in web design, web development, and IoT, I can effectively contribute my skills and knowledge to the growth of both the organisation and myself.

TECHNICAL SKILLS

Programming Languages: C, Python, C++

Frontend: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, React.js, Next.js

Backend: Node.js, Django/Flask (Python)

Databases: MySQL, SQLite, MongoDB, Firebase

Operating Systems: Windows, Linux

Tools: Git, VS Code, Arduino IDE, WSL2, Microsoft Office, Photoshop, Notion

PROFESSIONAL EXPERIENCE

Software Developer, Johnson & Johnson | Full-time (Remote) (July 2025 - Present)

- Worked at Johnson & Johnson on behalf of **Sisincorp**, collaborating with cross-functional teams to meet project requirements.
- Contributed to a high-impact project, **epi.jnj**, a JNJ platform configured with GS1 resolver and standards, enabling users to scan a GTIN to access product traceability information. Also worked on the eLabel Admin platform, which helps configure GTINs owned by JNJ to the resolver.
- Contributed to the development of the Johnson and Johnson Cross-Segment GS1 Asset Management Platform (AMP), building and enhancing web application features for GTIN, NDC, and NTIN product identifier management, data validation, search, dashboards, packaging hierarchy management, and global product master data workflows in compliance with GS1 standards.
- Utilised Agile methodologies, participating in daily stand-ups, sprints, and review sessions, alongside version control tools like Git and project management tools like Jira, ensuring timely delivery and maintaining high-quality standards.

Software Developer, Manappuram Finance Limited | Full-time (On-site) (May 2024 - June 2025)

- Collaborated with designers, developers, and clients to deliver scalable and responsive web applications.
- Designed, developed, and maintained a comprehensive Employee Management System.
- Optimized database queries and reduced page load times, significantly enhancing application performance.

VOLUNTEERING EXPERIENCE

Mentor, Inovus Labs IEDC (March 2024 - Present)

- Provided helpful feedback and suggestions while respecting the team's independence, with all decisions made together with the team and Nodal Officer
- Guided team members by sharing industry insights, helping them build skills, and providing support for student initiatives and events.
- Provided creative support for InoRa - The Inovus Radio (**Spotify Podcast**).

Community Lead, Inovus Labs IEDC *(May 2023 - March 2024)*

- Led community initiatives, defined objectives, and mentored junior members to build a stronger technical community.
- Offered technical support for Authentic TechMaster, a state-level hackathon.
- Enhanced public speaking and media handling skills through participation in various events.

EDUCATION

Master of Computer Applications (MCA) *(2022 - 2024)*

- Kristu Jyoti College of Management and Technology, Chethipuzha (Mahatma Gandhi University)

Bachelor of Computer Applications (BCA) *(2019 - 2022)*

- Kristu Jyoti College of Management and Technology, Chethipuzha (Mahatma Gandhi University)

Higher Secondary Education (Computer Science) *(2017 - 2019)*

- St. Berchmans Higher Secondary School, Changanacherry

High School Education *(2016 - 2017)*

- Kristu Jyoti Higher Secondary School, Chethipuzha
